The Honey Citrus Body Polish

A regional treat that pays homage to both our signature honey brought to us by our Eau Spa Beekeeper and the delicious citrus fruit that symbolizes the sweetness of South Florida. Finely ground French Sea Salt, and aromatic essences of honey and citrus are blended with massage oil to refine and polish the skin. A soothing, light application of this hydrating emulsion completes your experience, leaving your body velvety smooth, radiant and deeply moisturized.

60 Minute Body Polish and Moisture Application \$160

The Honeycomb-Out

Honey combs are nature's strongest structure, and we use the same science to fortify your hair. Our decadent Restorative Hair Mask has a warm rich fragrance infused with drops of honey and contains a high concentration of oils for deep penetration into the follicles. Your hair will be deeply moisturized, but feel light as the flight of the bumblebee.

The English word “music” comes from the Classical 9 Greek goddesses, the Muses, who were protectors of the arts and inspiration for their creators. From panpipes to electric guitars, muses have always been as important to musicians as their instruments. Summon your own personal muse to inspire your choice of music played in your treatment room. The color and scent of your treatment room is also customizable in order for you to create your own personalized experience.
